Professional Summary

Motivated Full Stack Developer and BSCS student at Superior University Faisalabad with a strong academic record (CGPA 3.75). Passionate about building scalable, high-performance web applications using modern technologies including Python, Django, PHP, React, and MySQL and PostgreSQL db's. Skilled at bridging complex backend logic with intuitive frontend designs, with a proven track record of delivering real-world projects ranging from dynamic portfolio platforms to multi-vendor e-commerce systems. Actively seeking opportunities to grow professionally through freelancing and industry internships while continuously advancing technical expertise.

Projects

Dynamic Portfolio Platform — [Python](#) · [Django](#) · [MySQL](#) · [Bootstrap](#) · [HTML/CSS](#)

- ▶ Built a fully responsive, database-driven portfolio site with smooth animations and transition effects.
- ▶ Integrated an admin panel for dynamic content management including projects, skills, and blog posts.
- ▶ Deployed with Django backend, SQLite/MySQL storage, and optimized static file handling.

AM_Mart — Daraz-like E-Commerce Website — [Python](#) · [Django](#) · [React](#) · [PostgreSQL](#) · [DRF](#)

- ▶ Developed a full-featured multi-vendor e-commerce platform inspired by Daraz.pk.
- ▶ Implemented product listings, cart system, order management, and user authentication.
- ▶ Integrated Django REST Framework for API-based communication with React frontend.

Price Comparison Website — [PHP](#) · [MySQL](#) · [HTML/CSS](#) · [JavaScript](#)

- ▶ Built a product price comparison platform that aggregates pricing data across multiple shops.
- ▶ Deployed live on InfinityFree hosting with custom domain and optimized .htaccess routing.
- ▶ Features dynamic product filtering, category management, and responsive UI.

React E-Commerce App — [React](#) · [Django](#) · [PostgreSQL](#) · [Bootstrap](#)

- ▶ Created a modern e-commerce platform with React frontend and Django REST Framework backend.
- ▶ Implemented state management, API integration, and responsive product browsing experience.

PHP School Management System — [PHP](#) · [MySQL](#) · [JavaScript](#) · [HTML/CSS](#)

- ▶ Migrated a legacy raw-PHP school management system to a structured, maintainable framework.
- ▶ Managed student records, fee tracking, timetable generation, and attendance modules.

RESOLVE.IO — University Complaint System — [Django](#) · [Python](#) · [MySQL](#)

- ▶ Designed a role-based complaint management platform for university students and staff.
- ▶ Implemented multi-role routing logic: Student, Staff, Admin with dedicated dashboards.
- ▶ Enabled real-time complaint status tracking and resolution workflow management.

Certifications

◆ **Web Development** — *Birdview Logic Academy, Faisalabad* (Apr 2025)

◆ **QSL003: Mastery in MySQL Technology** — *Saylor University (saylor.org)* (Apr 2026)
Grade: **89.00%** | Certificate ID: 347451820SS

Experience

Freelance Full Stack Developer | [Self-Employed](#) • 2024 – Present

- ▶ Delivering custom web solutions for clients using Django, PHP, and React.
- ▶ Projects include e-commerce platforms, price comparison tools, and university systems.
- ▶ Managing end-to-end development: requirement gathering, design, coding, and deployment.

Key Achievements

Advanced PostgreSQL
System Architecture
